"Weekend Invitation"

I drew this around the time when I was trying to go for a horror / suspense story. Shoujo manga is a genre saturated with love stories. I am not particularly good with these, so I was wondering what I should do in order to keep my job. I then started thinking about horror as one possible option. It wasn't that I liked the genre from the beginning, so I had to do a lot of studying. They still prove useful even today, so I don't think choosing the genre was a mistake after all.
